- Diploma

PERSONAL PROFILE

Self-taught developer who loves to solve problems digitally with top notch technologies. I am specialised in web technologies. I have strong technical Skills particularly in html, css, js(React) and PHP.

PROJECTS

- ### Food ordering system
  Core PHP

- Web application for Food Ordering system.
- I work on all parts of the code base, from infrastructure and backend to frontend and styling. Key technologies used: HTML, CSS, JavaScript, PHP, XAMPP, SQL.
- Features are user can order food, admin can manage foods, category and orders.
- Git Repo - https://github.com/Shibin-Abraham/food-order

- ### Shortify
  React project

- Developed a URL shortening application using React, integrating with a URL shortening API, allowing users to efficiently shorten and copy URLs.
- Git Repo - https://github.com/Shibin-Abraham/shortify
